### DETAILED ACTION

1. This action is responsive to the amendment, filed 2002-09-10.

#### *Specification*

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. The specification is objected to under 35 U.S.C. 112, first paragraph, as failing to support the subject matter set forth in the claims. The specification, as originally filed does not provide support for the invention now claimed.

New or amended claims which introduce elements or limitations which are not supported by the as-filed disclosure violate the written description requirement. See, e.g., *In re Lukach*, 442 F.2d 967, 169 USPQ 795 (CCPA 1971) (subgenus range was not supported by generic disclosure and specific example within the subgenus range); *In re Smith*, 458 F.2d 1389, 1395, 173 USPQ 679, 683 (CCPA 1972) (a subgenus is not necessarily described by a genus encompassing it and a species upon which it reads).

The test to be applied under the written description portion of 35 U.S.C. 112 is whether the disclosure of the application as originally filed reasonably conveys to the artisan that the invention had possession at the time of later claimed subject matter. See,

Art Unit: 3624

e.g., Vas-Cath, Inc. v. Mahurkar, 935 F.2d 1555, 1560, 19 USPQ2d 1111, 1114 (Fed. Cir. 1991).

Claims 1 and 10 include the limitation “using the same transaction medium, without requiring a separate secure medium channel”. However, the specification does not provide an enabling disclosure to support the claimed step of “using the same transaction medium, without requiring a separate secure medium channel”.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-22 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In particular, claims 1-22 are rejected under 35 U.S.C. 112, first paragraph, for the reasons set forth in the objection to the specification.

Art Unit: 3624

6. Claims 1-22 further rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. Claims 1 and 10, contain a negative limitation, "using the same transaction medium, without requiring a separate secure medium channel", which does not have basis in the original disclosure. The mere absence of a positive recitation is not basis for an exclusion. Note that a lack of literal basis in the specification for a negative limitation may not be sufficient to establish a prima facie case for lack of descriptive support. Ex parte Parks, 30 USPQ2d 1234, 1236 (Bd. Pat. App. & Inter. 1993).

For further examination, Examiner interprets the claim limitations in light of 35 U.S.C. 112, first paragraph rejection.

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claims 1 and 10 recites the limitation "the same transaction medium" in the claim.

There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 3624

***Claim Rejections - 35 USC § 102***

9. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

10. Claims 1-22 are rejected under 35 U.S.C. 102(b) as being unpatentable over *Rose et al.* (U.S. 5,757,917)

*Rose et al.* disclose a method for enabling a seller to create an online cash register substantially claimed including:

receiving from the seller, located at a first remote computer, a registration of a disbursement instrument for receiving payment from a buyer (col.5, line 35-col.6, line 2);

providing the seller with a plurality of payment instrument types (col.3, lines 15-30);

receiving a selection of a second plurality of payment instrument types that the seller chooses from the first plurality of payment instrument types, buyer can make the payment through the online cash register using a payment instrument corresponding to one of the second plurality of payment instrument types (col.3, lines 15-30; it is inherent

Art Unit: 3624

to choose any selected types of payment instrument, for example-Visa & Master or American Express & Discover, as the seller's pre-selected payment instruments for receiving funds); and

allowing the seller to define an additional charge to be added to a sale price for a purchase (col.11, line 33-col.12, line 40).

***Response to Arguments***

11. Applicant's arguments with respect to claims 1-22 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3624

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
